2. MINUTES:

The minutes of the April 19, 2023 meeting had been distributed prior to the meeting.

B. Coye moved, second by C. Fowler, to accept the minutes of the April 19, 2023 meeting as issued.

The motion passed 4-0-0

Ch. Alberti appointed Timothy Moore a voting member for the meeting in the absence of Karen Robinson.

Ch. Alberti noted that the Planning Board's attorney Charles Cleary had been invited to the meeting because the Board members had some questions for him and some of these would fall into the realm of a non-public session. He said the primary reason for the session is RSA 91-A:3, II (e) Consideration or negotiation of

pending claims or litigation which has been threatened in writing or filed by or against the public body or any subdivision thereof, or by or against any member thereof because of his or her membership in such public body, until the claim or litigation has been fully adjudicated or otherwise settled.

Ch. Alberti asked for a roll call vote to go into non-public session:

T. Alberti – yes, L. Milette - yes, C. Fowler - yes, T. Moore - yes and B. Coye - yes.

The vote passed 5-0-0

The meeting went into non-public session at 6:37 PM.

The public session reconvened at 7:29 PM.

C. Fowler moved, second by B. Coye, to seal the minutes of the non-public session.

Ch. Alberti noted that because it was determined that the divulgence of this information likely would render a proposed action ineffective, affect the reputation of any person other than a member of the Board.,

The motion to seal the minutes passed 5-0-0

4. ECONOMIC DEVELOPMENT MASTER PLAN SURBEY - UPDATE

Ch. Alberti noted that Jenn Rowland had asked to present this at the next meeting; he said unless it is a short update, there is unlikely it can be discussed at the May 17th meeting. For this meeting he invited V. Healey to make a presentation on NH MS4. She discussed stormwater runoff, impervious surfaces, point and non-point pollution, sewer separation, Soil erosion, stream channel erosion and sediment control as they affect the entire ecosystem. She noted these outcomes could also negatively affect property values. She talked about the benefits of having low-impact development

She discussed the MS4 permit, noting that it is complicated but the Planning Board only has to do a small component of it. She noted it is a 5-year permit and once Plaistow is compliant, that it is wrapping up on June 30th and that at this time the EPA will likely extend the permit for a year or more. She noted that all of Plaistow is within the MS4 area.

Ch. Alberti asked what the Board needs to do this year and if the Zoning Ordinances need to be updated to meet the MS4 requirements? V. Healey agreed and suggested that a lot of what is in the zoning ordinances could be moved to the site plan review regulations. She said each bit in the ordinances needs to be checked against the new updates. T. Moore suggested there may be many things in zoning that would serve better in site plans. V. Healey suggested the Board start thinking about the threshold for the size of a project that would invoke MS4 and who would be responsible for reviewing; the applicant/developer, the Town. There would need to be a check on whether the applicant followed their approved plans, how often they need to do that, etc. T. Moore suggested KNA & Associates for the review. Another conversation will be held to discuss Plaistow's current threshold and what other towns apply. V. Healey will put together a list of what other communities have picked for thresholds and look at bigger projects Plaistow has gone through.

R. Anthony asked if Plaistow has a policy of how to deal with an approved site plan, where construction has not been done for some time, and the Town updates the MS4 requirements. V. Healey said the plan holds to the regulations current at its approval.
