

The Plaistow Building Committee is seeking additional members:

In March of 2016, the Public Safety Project was approved by Plaistow voters. This project involves constructing a new police station and renovation of the current public safety building for use by the Fire Department. Through an extensive vetting process, the Town has hired and is utilizing the current team for this project:

- Trident Project Advantage Group (Owner's Project Manager)
- Eckman Construction
- Dore & Whittier - Architects

The Plaistow Building Committee has been in existence since 2003. The volunteer members of the committee have worked very hard to bring this project to approval with the community. Now that the project has been approved and is on its way to completion, the Building Committee is looking to add 3 new local members who have experience in the commercial construction trade to help oversee the project.

If you have an interest in joining this committee and have the necessary experience, you are encouraged to submit a resume or a letter of interest to the committee. The resume or letter should outline your experience in the building/construction trade and briefly explain why you believe that you can be a valuable member who can contribute to the project as it moves forward.

All resumes or letters should be sent to:

Chief Kathleen Jones, Chairman, Plaistow Building Committee
Plaistow Police Department
27 Elm Street
Plaistow, NH 03865

The information may also be submitted via e-mail at kjones@plaistow.com.

The deadline for submission is Friday, June 10, 2016 by 5:00 pm. Once the submission deadline closes, the members will be chosen and all interested parties will be notified within 5 business days.
