3. Old Business  
Review of site plan for PH site at 222 Plaistow Rd  
Jim Hanley, Dave Howard  
Previous plan had some area of pervious pavement. Steve Keach, Planning Board review engineer did not recommend the pervious pavement and hence applicant did a redesign with impervious pavement. 4300 sq ft along perimeter will be provided to treat the pavement runoff. Rooftop drainage will also be collected and treated. The combination of the rooftop and pavement runoff treatment as currently proposed will provide an overall improvement in the runoff flow into the wetland buffers compared to the pervious pavement plan.  
  
Olaf Westphalen made a motion to recommend the redesign, Charles Blinn made the second. No further discussion, the vote was 3-0-0.
4. New Business
  - Next meeting date – January 16, 2020
