**Southern NH Regional Waterline Project Workshop Meeting**

The Plaistow Board of Selectmen, who are the Board of Water Commissioners, are meeting with Underwood Engineers and the Town Manager, who is the Water Superintendent, On Thursday, September 26<sup>th</sup>, 2019 at 5:30 p.m. in the Town Hall Great Room on the second floor. The meeting is expected to last at least two (2) hours. This meeting will be televised on the Plaistow Local Access Channel 17 or 24 and scrolled for replay at later dates. The topics to be discussed will be the 30% approved design of the proposed Waterline Project, leading to the next steps or tasks. This is considered a Public Informational Meeting. This workshop meeting will be to learn and ask questions about the project as it moves from design to construction. Other topics will be surveys of possible water users, service meetings with property owners who are listed as MtBE properties, Atkinson meeting about the Pump House location and easement, future Water Ordinance proposed language, Request for Proposals (RFP) for a Water Operator, and various other topics related to engineering prior to construction bidding and contracts awarded to begin construction. Because this is a “workshop” meeting, there will be no votes taken or decisions made. The goal of this meeting is to schedule regular workshop meetings on the **Southern NH Regional Waterline Project** and inform the public through this type of educational meeting format.
