## FREQUENTLY ASKED QUESTIONS

### **What happens to the items we bring to the event?**

Every nut, bolt, piece of plastic and steel gets recycled locally at Bytefixx. If the item cannot be re-purposed, they break it down piece by piece. Nothing will see a landfill.

### **What happens to the data on my equipment.**

ALL INFORMATION on your equipment will be properly destroyed. Protecting your identity from falling into the wrong hands. Certificates can be provided upon request.

### **Do you provide data destruction certificate for compliance purposes?**

Bytefixx properly destroys your personal data on every piece of equipment. If you require a destruction certificate for compliance purposes we can provide you with one.

### **Certificate Costs:**

Residential - \$5  
Business - Free

## ABOUT RMON NETWORKS

RMON Networks, Inc. is a leading provider of Cabling and IT services to small and medium size businesses that do not have a dedicated IT staff or want to supplement their internal IT staff. Their services are designed to make their clients more efficient, productive, and satisfied with their technology investments.

With a trained and certified staff RMON Networks has been dedicated to delivering excellence in Cabling and IT Services. By staying ahead of market trends and ever-changing developments in IT, RMON can deliver enterprise class IT solutions to the smaller markets we serve. RMON Networks, offers services ranging from Managed IT and Managed Security Services, to designing IT infrastructures to enhance the performance of our client's technology investments. The RMON Networks team recognizes that a business's technology investment must be aligned with their businesses goals now and into the future.
