FUNDING RECIPIENT: Town of Plaistow

PROJECT TITLE: Plaistow PFAS Water Service Connections

PROJECT ADDRESS: 145 MAIN ST, PLAISTOW NH, 03865

WATER SYSTEM PWS#/PROJECT #: 1931010

The Town of Plaistow has applied for funds through the State of New Hampshire PFAS Remediation Loan Fund (PFAS-RLF) to finance a water infrastructure improvements project.

This project will include the extension of new water service connections from the curb stop to the building foundation. Approximately thirty-two (32) properties have been identified that are in close proximity of the Town's potable water system and have been found to have drinking water wells that are contaminated with PFAS above groundwater standards. The objective is to connect these properties to the new potable water system to provide them with clean drinking water.

All required permits and approvals will be obtained prior to construction.

Whereas this project constitutes only a minor project, and no significant environmental impacts are anticipated, a Finding of No Significant Impact (FONSI) is proposed.

PUBLIC REVIEW

This public notice is published in accordance with Env-Dw 1400 and a 30-day comment period will be held. Comments will be accepted through July 21, 2023
